Garden: The garden is almost exclusively indigenous. There are about 300 clivia in the garden - including Slaven Red.

There is about 200 sq metres of shade house containing clivia - mostly at the flowering stage.

The collection: includes yellows, greenthroats, peachs from various sources (Primich - 2 separate lines including Poor Man's Peach, Chubb, Nakamura (Ray's Mara Peach), Murillo, and odd ones), Darumas, Daruma Variegated, Monk, Monk Variegated, Light of Buddha, Broad and narrow leaf variegated, and many Red and Pastel shades.

Of interest will be the set-up for growing seedlings under lights
